

## A KIND GIRL

One day, while Jenny was walking in the woods, she saw a little bird.

She picked the little bird up and took it home. She bought a cage and some seeds.

When she came back from the shop, she quickly put the little bird into the cage. She opened the packet of the seeds and put them in a small container. After that she put the seeds and some water in the cage.

After a few days, Jenny noticed that the little bird did not fly at all! She knew that something was wrong. She quickly went to her father's room and looked for her father. Luckily, her father was in the room. Her father asked her why she came into the room. Jenny told her father all about the little bird.

Jenny's father hurried to a medicine shop to buy a bottle of medicine, a roll of bandages and a pair of scissors. He went home quickly to bandage the little bird's wing.

He put some medicine on the little bird's wing and asked Jenny to get a matchstick. Jenny gave the matchstick to her father. Her father took the matchstick and put it beside the bird's wing. Next he bandaged the bird's wing.

After that Jenny quickly put the little bird back into the cage.

After a few days, the little bird was well again. The next day, Jenny let it fly back to the woods. Jenny was very sad to let the little bird go but she knew that the little bird was happy to go home.

Answer the following questions!

1. Where was Jenny when she saw a little bird?

---
